

Unconventional Thinking. Unmatched Expertise.

PRECISIONheor is a team of accomplished experts who devise and execute innovative research strategies, leveraging decades of experience and proven methodologies to produce the most credible and relevant evidence essential to a favorable value assessment.

Accelerate Your Success

▲ **Our exceptional roster of experts** delivers thinking beyond the standard questions, definitions and approaches, developing innovative evidence strategies that align tactics with rapidly evolving pricing, reimbursement, and product positioning considerations.

▲ **With decades of experience** across diverse methodological backgrounds, we provide deep expertise in economics, epidemiology, statistics and public policy; we are consistently tapped for forward-thinking guidance and consultation by prominent healthcare organizations and stakeholders.

Direct, Effective Communication of Findings

850+

Research projects completed

300+

Peer-reviewed articles

200+

Abstracts presented at conferences

100+

Commentaries, op-eds, and thought leadership articles in mainstream and healthcare media outlets

40+

ICER reports, preparation and strategy consultations

PRECISIONheor Services

Strategy and Consulting

Get strategic guidance to ensure the right evidence is ready to support the demands of payers, HTA organizations, ICER, policymakers, and other stakeholders

Real-world Evidence

Quantify disease burden, treatment patterns, costs, patient preferences, utilities, and other outcomes using primary and secondary data

Modeling and Microsimulation

Assess the complex interactions between healthcare interventions and outcomes by integrating available evidence

Evidence Synthesis

Use indirect treatment comparison methods to evaluate clinical and economic outcomes of competing interventions

Experts

PRECISIONheor's accomplished experts provide innovative and effective approaches to demonstrating value.
